dedicated compartment for scuba compressor and tanks

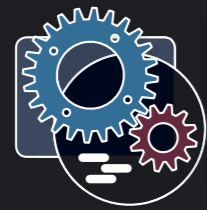

Financing

Take advantage of our optional in-house build finance structure.

We offer this service for your maximum peace of mind during the one year build period. This very unique structure allows you to reserve any available production slot with 10% deposit and we will finance the build of your yacht, so you will only have to pay the 90% balance when your boat is launched and sea trials completed.

After sales

Xquisite Yachts offer an after sales service unmatched in the industry.

We are there for you from the handover and onboard training as well as for any technical issues you might have. We even handle all the component warranties for you to make your boat ownership easy and hassle free. We offer different maintenance packages custom tailored to your needs.

Certified Pre-Owned

If our waiting list for a new boat is too long and you wish to get on the water earlier, or the time has come to sell your Xquisite, take advantage of our Certified Pre-Owned Program.

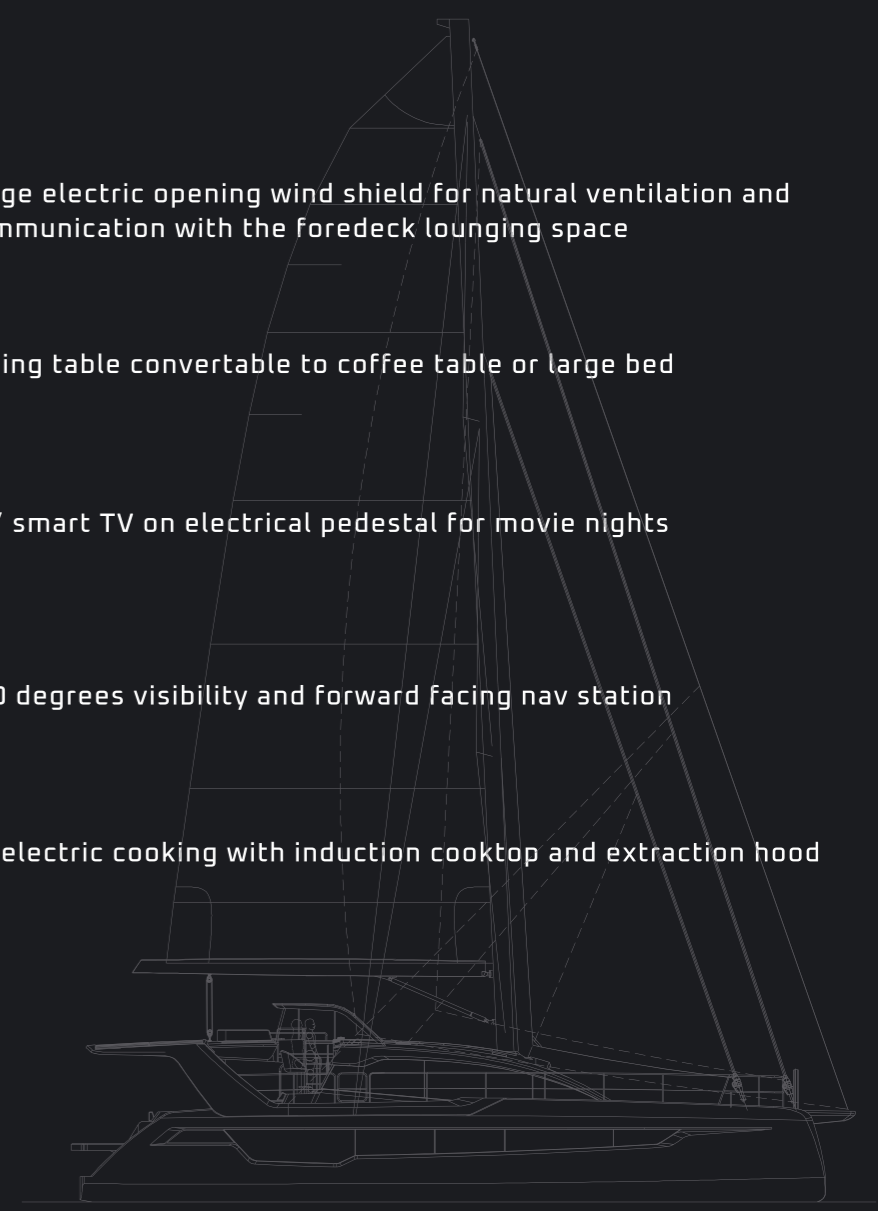

We have buyers ready to go, so our pre-owned boats go pretty fast with a full factory checkup and extended warranty for the new owner.

S i x t y S o l a r S a i l
